Subject/ Objet: ***Schedule of Post Adjustment Classifications and threshold figures for the purpose of calculating rental subsidies/Classement des lieux d'affectation aux fins de l'application des ajustements (indemnités de poste ou déductions) et seuils aux fins du calcul des allocations de logement***

A consolidated schedule of post adjustment classifications and threshold figures for the purpose of calculating rental subsidies (or deductions) is attached.

Names of countries and areas which appear in the English alphabetical order are indexed in French in the list attached to the schedule.

In cases where only one post adjustment classification is shown for a country, normally for the capital city, that classification will be applicable for all duty stations within the country.

This schedule is effective ***1 February 1994****, unless otherwise indicated, and supersedes any schedule previously published.*

On trouvera ci-joint un barême mis à jour du classement des lieux d'affectation aux fins de l'application des ajustements (indemnités de poste ou déductions) et des seuils aux fins du calcul des allocations (ou/déductions) de logement.

Les noms des pays et localités figurent par ordre alphabétique anglais. On trouvera à l'index annexé au barême les noms en français.

Dans les cas où une seule classe est indiquée pour le pays, en général pour la ville capitale, cette classe s'applique à tous les lieux d'affectation dans le pays.

Sauf indication contraire, le barême ci-joint entre en vigueur le ***1er février 1994*** *et remplace tous les barêmes déjà parus.*

DESCRIPTION OF DATA APPEARING IN PAC CIRCULARS

1. **Country or area** - Name of country or area appears under this column.

2. **Exchange rate** - Latest exchange rate.

3. **Post adjustment**

   a. **Index** - The post adjustment index (PAI) used to determine the latest post adjustment multiplier. The letter "e" against an index indicates an estimate.

   b. **Mult.** - Post adjustment multiplier.

   c. **Chg. ind.** - Change indicator. When revised post adjustment classification (PAC) is reported in the circular for the first time, a 'Y' will appear under this column.

   d. **Eff. date** - Effective date of PAC (multiplier).

   e. **Reason for change** - When the revised PAC is reported in the circular for the first time the reason for change is shown under this column.

4. **Thresholds**

   a. **Dep. rate** - Threshold percentage figure at the dependency rate.

   b. **Sing. rate** - Threshold percentage figure at the single rate.

   c. **Calc. ind.** - Calculation indicator. When a 'Y' appears in a column, all housing subsidies at the duty station must be recalculated effective the date shown in the next column. When a 'Z' appears in this column, all housing subsidies at this duty station must be recalculated effective the date of the post adjustment change.

   d. **Eff. date** - Effective date of threshold percentages shown in the circular.

READEX
FICHE

NATURE DES DONNEES FIGURANT DANS LES CIRCULAIRES PAC

1. **Pays ou localité** - Le nom du pays ou de la localité figure dans cette colonne.

2. **Taux de change** - Taux de change le plus récent.

3. **Indemnités de poste**

   a. **Indice** - L'indice de l'indemnité de poste sert à déterminer le plus récent multiplicateur. La lettre "e" après un indice indique qu'il s'agit d'une estimation.

   b. **Mult.** - Multiplicateur aux fins du calcul de l'indemnité de poste.

   c. **Changement** - Lorsque la circulaire signale pour la première fois un changement dans le classement du lieu d'affectation, la lettre 'Y' figurera dans cette colonne.

   d. **Date eff.** - Date d'entrée en vigueur du classement du lieu d'affectation (multiplicateur).

   e. **Raison du changement** - Lorsque c'est la première fois qu'une modification du classement d'un lieu d'affectation apparaît dans la circulaire la raison de cette modification est indiquée dans cette colonne.

4. **Seuils**

   a. **Avec charges de famille** - Pourcentage-seuil avec charges de famille.

   b. **Célibataire** - Pourcentage-seuil sans charges de famille.

   c. **Ind. calc.** - Indicateur de calcul. Lorsque la lettre 'Y'figure dans cette colonne, toutes les allocations logement payables au lieu d'affectation devront être recalculées à compter de la date indiquée dans la colonne prochaine. Lorsque la lettre 'Z' figure dans cette colonne, toutes les allocations logement payables au lieu d'affectation devront être recalculées à compter de la date d'entrée en vigueur du changement concernant le classement du lieu d'affectation aux fins des indemnités de poste.

   d. **Date eff.** - Date d'entrée en vigueur des seuils indiqués dans la circulaire.

Gap Closure Measures

1. The Commission, at the request of the General Assembly established procedures to be applied in situations when upon implementation of results of a place-to-place survey a significant difference existed between the post adjustment index and the actual multiplier. Details of these procedures are contained in the Commission's report on the work of its thirty-fifth session (ICSC/35/R.16, para 61 (d)) and in the post adjustment circular ICSC/CIRC/PAC/208 of 6 April 1992. In accordance with the above mentioned procedures, adjustments for the Czech Republic, Slovakia, Madagascar, Peru and Syria are set out below:

Czech Republic & Slovakia

2. A new multiplier 27 is announced for all staff in the Czech Republic and Slovakia effective 1 February 1994. While staff members posted to these duty stations on or after 1 February 1994 will be entitled to net base salary plus post adjustment at the new PAC level of multiplier 27, those at the duty stations prior to 1 February 1994 should, in addition, receive a personal transitional allowance (PTA) corresponding to the post adjustment amount for 1.0 multiplier point.

3. The new multiplier of 27 was derived by applying a 5% upward adjustment factor to the results of survey conducted in the Czech Republic in September 1993. The PTA amount of 1.0 was determined by comparison of the new February 1994 multiplier (27) with multiplier (28.0) which would have been applied in the absence of survey results.

Madagascar

4. A new multiplier 29 is announced for all staff in Madagascar effective 1 February 1994. While staff members posted to the duty station on or after 1 February 1994 will be entitled to net base salary plus post adjustment at the new PAC level of multiplier 29, those at the duty station prior to 1 February 1994 should, in addition, receive a personal transitional allowance (PTA) corresponding to the post adjustment amount for 6.0 multiplier points.

5. The new multiplier of 29 was derived by applying a 5% upward adjustment factor to the October 1993 survey results. The PTA amount of 6.0 was determined by comparison of the new February 1994 multiplier (29) with the multiplier (35.0) which would have been applied in the absence of survey results.

Peru

6. PTA is eliminated as of 1 February 1994. This completes the implementation of gap closure measures to reflect the results of the most recent place-to-place survey conducted in Peru in September 1993. (ICSC/CIRC/PAC/228 of 6 December 1993 refers)

Syria

7. Gap closure measures for Syria are completed as of 1 February 1994. (ICSC/CIRC/PAC/211,212, 213 and 224 refer).

Devaluation of local currency

8. Effective 1 January 1994 the local currency for Zambia was devalued from 455 to 660 Kwacha to one US dollar. In accordance with the revised measures for dealing with abrupt and substantial devaluation of local currency, the post adjustment multiplier for Zambia would become due for a downward adjustment of not more than 10 points effective 1 May 1994., i.e., 4 months after the devaluation, subject to the evolution of the post adjustment index.

Cost-of-living surveys

9. The results of cost-of-living surveys for the following duty stations were taken into account in the attached tables:
